1. Welcome

Dear Trainee

Congratulations on your appointment to the Specialist Training Programme in Vascular Surgery (ST3-ST8).

We take great pride in the efficient organisation and running of the intense six year programme.

As a specialty, we continually review the training programme and identify areas we can improve upon. Equally, we aim to introduce new incentives that will contribute to the quality of training experience.

Take time to read through this document as it will aid you in your development through each year of training from ST3 to ST8.

The ISCP website and the linked Vascular Surgery curriculum will give you clear guidelines to the knowledge base and skills base that you need to acquire. It is your responsibility with your trainers to work your way through this curriculum to become a skilled Vascular surgeon.

Mr Stephen Sheehan MD FRCSI

Training Programme Director for Vascular Surgery

If you have any questions, please contact me by email or phone, via Denise Colgan, Specialty Training Administrator for Vascular Surgery. RCSI Surgical Affairs. Royal College of Surgeons in Ireland, 121 St. Stephen's Green, Dublin 2, Ireland

T: 01-402-2188 F: 01-402-2459 E: denisecolgan@rcsi.ie
2. Rotations

All Trainees complete six years of Specialist Training on the Vascular Surgery Programme at levels ST3-ST8. For the first two years of the programme, suitable training posts are pre-selected by the training committee for trainee’s ST3 and ST4 rotations.

3. Meeting with the Training Programme Director (if required)

If you have any questions before starting the programme you may wish to meet with the TPD, Mr Stephen Sheehan.

All meetings to be booked through your Specialty Training Administrator: E: denisecolgan@rcsi.ie, but most concerns will be covered at the induction meeting held in RCSI on 29th June 2018.

4. Joint Committee on Surgical Training (JCST)

The JCST is an advisory body to the four surgical Royal Colleges of the UK and Ireland for all matters related to surgical training and works closely with the Surgical Specialty Associations (SACs) in Great Britain and Ireland. The JCST is the parent body of the Specialty Advisory Committees (SACs).

Link https://www.jcst.org/irish-trainees/ to the JCST website for Republic of Ireland Trainees.

You will need to supply a copy of your Certificate of Completion of Basic Surgical Training (CCBST) or Core Surgical Training Certificate (CST) to your ST Administrator email: denisecolgan@rcsi.ie as soon as you have received the certificate. If you have entered the specialty programme via the Pathway programme (ST2) please note you do not automatically receive a CST certificate and will need to apply for this, if you have not already done so. Please contact the CST Administrator, Rob Tracey in relation to this at: roberttracey@rcsi.ie. The JCST require a copy of your CST/CCBST certificate in order to enrol you with the Specialty Advisory Committee (SAC) and formally advise you of your CCST date.
5. Intercollegiate Surgical Curriculum Programme (ISCP)

The ISCP (https://www.iscp.ac.uk/) provides the approved framework for surgical training from completion ST3 in RCSI through to consultant level.

It achieves this through a comprehensive syllabus link: https://www.iscp.ac.uk/curriculum/surgical/surgical_syllabus_list.aspx which lays down the standards of specialty-based knowledge, clinical judgement, technical and operative skills and professional skills and behaviour, which must be acquired at each stage of training in order to progress and allows the Trainee to maintain a portfolio via the site to record the various work based assessments (WBA), E-portfolio and Annual Review of Competence Progression (ARCP) as the Trainee progresses through ST3 - ST8 years of training.

You will be able to use this system throughout your surgical career from ST3 onwards and you should use it as your portfolio for all your achievements, publications, presentations, audits, surgical cases etc. is important to point out that YOU are responsible for driving your training and ensuring that you have the evidence to support your training and the required competencies that need to be reached each year for your progression through specialty training along with successful completion of the FRCS exam and ultimately the award of your Certificate of Completion of Specialist Training (CCST). RCSI will support you and your Specialty Trainers to ensure your training is being delivered and assessed.

All Trainees commencing Specialty Training in ST3 will be required to sign up to the ISCP. In summary, ISCP is an online platform which will house important training information on you, most notably the following:

- Placement history
- Curriculum Vitaes
- Learning Agreements
- Work Based Assessments
  - Case Based Discussions CBDs, Clinical Evaluation Skills CEXs, Procedure Based Assessments PBAs, Directly Observed Procedures DOPs and Multi-Sourced Feedback MSF’s
  - Evidence
  - For Courses you attend; Presentations; Examinations (VESPA (tbc)); Internal Meetings (i.e. with your Mentors) and Other Evidence.
- Annual Review Competency Progression (ARCPs)
- eLogbook
- Please ensure you update yourself from SHO to SpR in the eLogbook.

ISCP aims
- Structured and supervised framework with definable endpoint
- Clear standards
- Fully integrated assessment system
- Promote professionalism
- Patient safety and improved care

Trainee benefits
- Consistent training experience
- Interaction with Trainer
- Educational feedback from Trainer
- Training of Trainers
- Clearly defined syllabus
- Online Portfolio of evidence

RCSI Support

RCSI is committed to offering support and training to all trainees and trainers using ISCP. Training sessions are run regularly at various hospitals to support your trainers on how to manage and utilise the ISCP platform. These sessions are then open to trainees to attend following the main event for the trainers. Furthermore, Trainee days also are run in RCSI. Our ISCP Trainer Dr Helen Harty (helenharty7@gmail.com), your ST Administrator along with the ISCP Helpdesk (0044 207 869 6299 or helpdesk@iscp.ac.uk) are available on email and phone to support queries from all trainees. If you or your specialty colleagues wish to have an organised training session please contact your ST admin who will help to facilitate this.
6. Research Methodology Course for Surgical Trainees

The Irish Surgical Postgraduate Training Committee is committed to ensuring that surgical trainees have good exposure to Academic Surgery as an integral part of surgical training. As a first step, a taught course in research methodology was introduced in 2015. This is a modular programme, which runs over four days in ST3 and ST4 (i.e. two days in each training year). The programme gives a comprehensive introduction to research methodology relevant to surgeons and is delivered in RCSI by Professor Tom Fahy and his team. After ST4, some trainees may opt to take time out of surgical training to pursue an MD or PhD through full time research for two years. However the taught programme is intended for all surgical trainees, even if they do not plan to pursue an MD or PhD later. The ISPTC has deemed this programme mandatory for all ST3 trainees in all specialities and you will be required to complete the four modules in order to be “signed off” in your ARCP at the end of ST4. However, those trainees who have already completed a taught MCh, or MD or PhD are exempted from the research methodology course as they have already completed a similar course as part of their higher degree. Trainees commencing in ST3 will be contacted with details of the course including exemption details.

A copy of the Research Methodology exemption form can be downloaded from the mSurgery link: [https://msurgery.ie/home2/specialist-training/research-methodology](https://msurgery.ie/home2/specialist-training/research-methodology)

7. 20 RCT’s/Systemic Reviews relevant to Vascular Surgery that have had an impact on how we practice today

Carotid Disease

5. Endarterectomy versus Angioplasty in patients with symptomatic severe carotid stenosis (EVA-3S) trial: results up to 4 years from a randomised, multicentre trial. EVA-3S Trial Collaborators. Lancet Neurology 2008;7:885-892.

Aortic Disease

Peripheral Vascular Disease

Secondary Prevention in Peripheral Vascular Disease

Venous Disease

8. Trainee paperwork

It is highly recommended to that you cultivate **good organisational habits** from the start of the programme and keep up-to-date with your on and off-line paperwork.

Now that you will be using ISCP, most of your paperwork will be **online**. You will need to **register** with the site, the link is: [https://www.iscp.ac.uk/](https://www.iscp.ac.uk/)

- For instructions on how to register click on this link: [https://vimeo.com/147004233](https://vimeo.com/147004233)
- For an ISCP Overview click on this link: [https://vimeo.com/147579752](https://vimeo.com/147579752)

**Per six months**, you will need to do the following:

Please note this is with the **exception of Multi-Source Feedback** (MSFs) previously known as 360s, which you will only need to complete one per calendar year i.e. July – December in your first year and January – December each year thereafter.

- Create your **Learning Agreement on ISCP** with the **Assigned Educational Supervisor** (AES, previously known as Lead Trainer, list below) and set **learning goals** for this six-month placement.

You will need three meetings per Learning Agreement, which you will also need to sign off on; at least one Clinical Supervisor Report and then an AES Report also needs to be completed.

- Add the other trainers in your unit as Clinical Supervisors. You will need at least one Clinical Supervisor Report before your AES can complete their AES Report. The AES report will not even be visible to your AES until a Clinical Supervisor report has been completed.

- For the final LA meeting please advise your AES to type ‘see AES Report’. Then your AES will just need to complete an AES Report for you. This should minimise the work the AES needs to do back to three meetings rather than four stages. So it is essential to tackle as soon as you commence each new placement.
Aim to complete one WBA on ISCP per week. You need to do at least forty per twelve months.

- In terms of diversity, you will need a minimum of three from each category (Case Based Discussions CBDs, Clinical Evaluation Skills CEXs and Procedure Based Assessments PBAs) per six months.

You will also need to submit one Multi-Sourced Feedback on ISCP (MPAT/MSF) in your ISCP portfolio in this calendar year. This takes time as you need a minimum of eight ‘raters’ to rate you.

Link to the MSF guidance document on ISCP can be found on;

https://www.iscp.ac.uk/static/public/msf_guidance.pdf

Your Curriculum Vitae needs to be uploaded to ISCP each year in advance of your review (ARCP).

Add your certificates of attendance at courses to ISCP under ‘Courses/e-learning’ in your other evidence section.

Your Core Curriculum confirmation of attendance needs to be uploaded to ISCP before your ARCP under ‘Courses/e-learning’ in your other evidence section.

Trainees are required to attend core curriculum training days, vascular master classes and the vascular surgery boot camp as advised by the college.

Vascular Education and Self-Assessment Program (VESAP), one module must be completed per term and at least the first three modules needs to be completed each training year. The overall marks will be noted at each trainee’s ARCP and will form part of your overall counselling result.

Mock Intercollegiate Day, trainees who have not passed the intercollegiate exam will be required to attend this annual mock exam day in RCSI. The exam marks will be noted at each trainee’s ARCP and will form part of your overall counselling result.
Link your eLogbook [http://www.elogbook.org/](http://www.elogbook.org/) to ISCP and ensure on the eLogbook that you have changed your status from REG to SpR. If you are having difficulty linking your eLogbook to ISCP please contact the eLogbook helpdesk ([helpdesk@elogbook.org](mailto:helpdesk@elogbook.org)) 0044 (0) 131 527 3494 or contact Ms Kit MacLean, eLogbook Technical Administrator ([K.Maclean@rcsed.ac.uk](mailto:K.Maclean@rcsed.ac.uk)) for assistance.

**Completed Audits** – Each trainee should carry out at least one complete audit per year of an aspect of their own or their training unit’s practice. The training consultants will give guidance on an appropriate subject and methodology, but it is the responsibility of the trainee to initiate this with three weeks of starting each new training placement.

- The audit should include (with attached copies of relevant published literature).
- Discussion of the choice of audit subject.
- Discussion of the choice of standard against which current practice will be audited.
- Outcome of initial audit of current practice and the variance of results from chosen standard. Measures taken to improve practice.
- Final audit and closure of audit loop.

**Copies of Published Papers** – The trainee should keep all of their publications in this section of the training portfolio, which be assessed at each counselling session.

**Human Factors in Patient Safety** – Mandatory attendance at these training days is required.
9. Certificate of Completion of Surgical Training (CCST) in Vascular Surgery

The JCST initiates the certification process six months before the end of your training.

We check all the evidence in your file and, if it is in order, we will ask you to submit the documents and information needed for your certification application to the SAC in advance of your final ARCP. Once we have received all the additional evidence we need, we prepare an application and send it to the SAC for assessment. If the SAC believes you have met all the requirements of your training, the JCST will recommend you to the Royal College of Surgeons in Ireland for the award of a Certificate of Completion of Specialist Training (CCST)

NB Please click on the link: https://www.jcst.org/quality-assurance/certification-guidelines-and-checklists/ for the guidelines for the award of a CCST in Vascular Surgery;
10. Annual Review of Competence Progression (ARCP)

The ARCP will be held in December and June of each year of training and forms the official sign off process of your training year.

ISCP is a formative process and the WBAs you undertake are designed to show your progress in acquiring competences when you attend your Annual Review of Competency Progression (ARCP). It is important that you have completed and validated a minimum of forty WBAS per year in order for the Training Committee to be able to review your progress, and any necessary changes to your training to be dealt with if any deficiencies are highlighted within your first six-month placement.

There are five ARCP ratings, which can be assigned as outlined below;

ARCP 1
Satisfactory Progress – Achieving progress and competencies at the expected rate.

ARCP 2
Unsatisfactory progress – Development of specific competencies required additional training time not required.

ARCP 3
Unsatisfactory Progress – Inadequate progress by the trainee – additional training time required.

ARCP 4
Released from training programme without specified competencies, either trainee’s own reasons/removed from programme following ongoing concerns.

ARCP 5
Incomplete evidence presented – additional training time may be required.

*Incomplete and the trainee has a time frame (typically ten days) to get their portfolio together, following this period an ARCP 1, 2, 3 or 4 is awarded.

ARCP 6
Recommendation for completion of training.
# 11. Funding

Funding is available to Trainees via four different funds. The link to funding is: [https://msurgery.ie/home2/specialist-training/financial-supports-for-sprs](https://msurgery.ie/home2/specialist-training/financial-supports-for-sprs). Please see table below for a brief overview of all funds. The guidelines and refund forms for all the mandatory, specialist, surgical loupes and clinical courses, and examination funds are located on mSurgery.

<table>
<thead>
<tr>
<th>Fund</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>MANDATORY FUND</strong></td>
<td>- Run by RCSI on behalf of HSE/NDTP.</td>
</tr>
<tr>
<td></td>
<td>- For approved mandatory courses only.</td>
</tr>
<tr>
<td></td>
<td>- €1200 maximum per year per trainee.</td>
</tr>
<tr>
<td></td>
<td>- Funding is not carried over year-on-year.</td>
</tr>
<tr>
<td></td>
<td>- Trainees must have approval for the course before claiming. Each specialty has a list of approved courses.</td>
</tr>
<tr>
<td><strong>SPECIALIST TRAINING FUND</strong></td>
<td>- Run by RCSI on behalf of HSE/NDTP.</td>
</tr>
<tr>
<td></td>
<td>- For training courses/activities, equip, books, expenses.</td>
</tr>
<tr>
<td></td>
<td>- €500 per year per Trainee.</td>
</tr>
<tr>
<td></td>
<td>- Funding is carried over year-on-year e.g., three years unclaimed will give the Trainee €1500 to claim.</td>
</tr>
<tr>
<td><strong>CLINICAL COURSES AND EXAMS FUND</strong></td>
<td>- Run by HSE/NDTP for courses and exams only on the approved list.</td>
</tr>
<tr>
<td></td>
<td>- €450 per claim, no restrictions on how many claims can be submitted per year.</td>
</tr>
<tr>
<td></td>
<td>Trainees must claim for this fund through the HR Departments in their hospital within six months of attending the exam/course.</td>
</tr>
<tr>
<td><strong>SURGICAL LOUPES FUND</strong></td>
<td>- The Surgical Loupes fund is open to trainees in years ST3-ST8.</td>
</tr>
<tr>
<td></td>
<td>- Applications open in Feb each year and close end of March.</td>
</tr>
</tbody>
</table>
*Please note while it is our intention to meet all mandatory training requirements, funding will be subject to review and approval by the HSE/NDTP on an annual basis.*

RCSI pays fees for Trainees to use:

12. Student card/library

You will need an RCSI email to access journals on the RCSI website, electronic library and to gain entry to the library. Your student identification card may be obtained from the IT department, ground floor, RCSI, 121 St. Stephens Green.

13. The Irish Surgical Training Group (ISTG)

The Irish Surgical Training Group is a group of Surgical Trainees who represent all sub-specialty Trainees in Ireland from ST 1-8. The aims of the group are as follows:

- To provide leadership for Surgical Trainees of all disciplines.
- To represent the voices of Surgical Trainees as key stakeholders in planning of surgical training with all training bodies and committees.
- To provide a forum for the discussion of surgical training issues through meetings:
  - Training information evening and AGM: get the inside track on life as senior Trainee on your sub-specialty of interest.
  - Annual meeting of ISTG and Bosco O’Mahoney lecture: part of Charter day meeting: themed meeting on issues affecting surgical Trainees, reports from recent fellowships.
  - Annual Trainee dinner and presentation of Silver Scalpel Award.

The ISTG can provide support and advice to Trainees and can be contacted at irishsurgicaltraininggroup@gmail.com. It would be a good idea to email this group and request they put you on their mailing list.

</tr>
</tbody>
</table>
15. Retrospection

The Vascular Surgery Programme is a six-year full time training programme and the training committee does not allow applications for retrospection.

16. Out-of-programme training

If deemed appropriate by the Training Committee, you can apply for time out of programme both in the UK and overseas, to count towards training. To go on OOP training you will need to:

- Discuss your intention with your Training Programme Director (TPD) and gain their support.
- Contact the RCSI and ask which applications you need to make to them to gain their support.
- Once you have the support of your TPD, you will need to make an initial application to your SAC for prospective support.

There are restrictions on the amount of OOPT you can count towards training i.e. across the whole of your training a maximum of 12 months OOPT can be counted towards training, and you cannot get retrospection and OOPT, in Ireland. The SAC must prospectively approve any OOPT activity if you intend it to count towards certification.

Out of programme training application checklist

<table>
<thead>
<tr>
<th>Description</th>
<th></th>

</tr>
</tbody>
</table>
Logbooks from two previous incumbents of the post or a report from the Supervisor on the expected number of operations

OOPT and OOPE links to the JCST website can be found: https://www.jcst.org/irish-trainees/out-of-programme/

17. Job-sharing

Postgraduate Trainees can now avail of job-sharing opportunities for a set period of time. Job-sharing works on the basis that two Trainees will share one full-time post with each Trainee working 50% of the hours. The aim of the job-sharing policy is to retain doctors within the medical workforce who are unable to continue training on a full-time basis.

Please see https://msurgery.ie/home2/specialist-training/job sharing for more details and an application form.

18. The post reassignment request

The post reassignment process has been established to support Trainees who have had an unforeseen and significant change in their personal circumstances since the commencement of their current training programme (ST1 - ST8) which requires a change to the agreed post/rotation.

This process is managed by Postgraduate Training and governed by the specialty and ISPTC. Please see https://msurgery.ie/home2/specialist-training/post reassignment request for further details and an application form.

19. HSE national flexible training scheme

The HSE National Flexible Training Scheme for Higher Specialist Trainees is a national scheme managed and funded by the Health Service Executives National Doctors Training and Planning (NDTP) Unit. The scheme provides for a limited number of supernumerary places to facilitate doctors at higher specialist training level to continue their training in a flexible manner for a set period of time.

The guide can be found at: https://msurgery.ie/home2/specialist-training/flexible training: higher specialist trainees, which sets out the current details of the National Flexible Training Scheme and provides information for Trainees about the programme and the application process.
Applications generally open at the beginning of August and close at the end of December for the training year commencing the following July.

**20. Career break information for NCHDs**

NCHDs who travel abroad can now apply for a career break and if approved will remain on the superannuation scheme. Please see the HSE circular in relation to career breaks: [https://msurgery.ie/home2/specialist-training/career break information for NCHDs](https://msurgery.ie/home2/specialist-training/career break information for NCHDs)

NCHDs wishing to avail of a career break under this arrangement must apply to their Employer in sufficient time before the expiry of their current contract. For those NCHDs participating in a Specialist Training Scheme they must also apply to the relevant postgraduate medical training body and obtain the formal written approval of the relevant postgraduate medical training body. This formal written approval must be attached to the career break application to their employer.

Please see: [http://www.rcsi.ie/files/surgery/20140813121740_Agencies.pdf](http://www.rcsi.ie/files/surgery/20140813121740_Agencies.pdf) for the list of agencies with public service employees funded by the HSE.

**21. Maternity/Paternity leave**

As Maternity Leave also affects the CCST date, you will be required to inform your Programme Director and the College of your Maternity leave start and finish dates when you have them. Trainees must also inform their employer as per their HSE contracts.

**22. Exceptional leave**

You can be granted three months exceptional leave for illness/exceptional circumstances. This will add three months to your expected CCST date.

The SAC require a letter from you outlining the reasons for the exceptional leave and what you will be doing during this time. A letter from the TPD is also required to confirm their agreement for you to take exceptional leave and confirm your new completion date. Trainees must also inform their employer as per their HSE contracts.
23. RCSI surgical fellowships and awards

The College is committed to encouraging the acquisition of additional training and skills outside the structured programmes of the College and, to this end, provides a range of scholarships and grants in postgraduate surgery to assist surgeons-in-training and recently appointed Consultant Surgeons to gain additional expertise in centres of excellence overseas. Applicants must be Fellows or Members of the Royal College of Surgeons in Ireland who are in good standing. Please see http://www.rcsi.ie/fellowships_and_awards for further information.
